

# **Call for Papers**

#### Important dates

Paper submission deadline: May 31, 2024 AoE Authors' notification: June 23, 2024 AoE Camera-ready submission: June 30, 2024 AoE Early registration deadline: July 20, 2024 AoE Conference dates: September 2-4, 2024

#### **Conference chairs**

Stavros Shiaeles (UK) Nicholas Kolokotronis (GR) Emanuele Bellini (IT)

#### **Steering committee**

Stavros Shiaeles (UK) Nicholas Kolokotronis (GR) Emanuele Bellini (IT) Ernesto Damiani (UAE) Stefano Marrone (IT) Vasilis Katos (UK) Costas Vassilakis (GR) Bogdan Ghita (UK) Giancarlo Fortino (IT) Francesco Flammini (SE)

### **Technical program chairs**

Paul Haskell-Dowland (AU) Kim-Kwang Raymond Choo (US) Gueltoum Bendiab (DZ)

#### **Track chairs**

Nicholas J. Multari (US) Rosalie McQuaid (US)

#### **Publication chairs**

Nicholas Kolokotronis (GR) Nathan Clarke (UK) Costas Vassilakis (GR)

#### Workshops chairs

Sokratis Katsikas (NO) Konstantinos Limniotis (GR)

The IEEE International Conference on Cyber Security and Resilience (IEEE CSR) is an annual event sponsored by the IEEE Systems, Man, and Cybernetics (SMC) Society. It focuses on theoretical and practical aspects of security, privacy, trust, and resilience of networks, systems (including complex cyber-physical systems), applications, and services, as well as, novel ways for dealing with their vulnerabilities and mitigating sophisticated cyber-attacks. The IEEE CSR 2024 conference will be held as a **hybrid event**, during September 2–4, 2024.

Prospective authors are encouraged to submit previously unpublished contributions from a broad range of topics, which include but are not limited to the following:

#### Cyber security

- > Big data security
- > DLT/smart contract security
- > Cloud-edge security
- > Cyber-security and AI
- > Cyber-threat intelligence
- > Distributed systems security
- > Game-theoretic security
- > Forensics
- > Identity management and access control
- > Insider threats
- > Lightweight cryptography
- Malicious cryptography
- > Malware detection
- > Moving target defense
- > Network intrusion detection
- > Post-quantum security
- Privacy and data protection > Trust management systems
- > Trusted execution
- environments
- > Web services security

- Cyber resilience
- > AI for resilience management > Automotive cyber security
- > Formal methods in resilience > Autonomous systems
- > Self-adaptive cyber resilience
- > Cyber-range platforms
- > Cyber-resilience assessment > Digital twins and cyber-
- > Cyber-resilience foundations
- Cyber-risk forecasting
- > Cyber-security training
- > Cyber-threat adaptive capacity in IoT
- > DLT resilient architectures
- > Dynamic risk management
- > Fault tolerant architectures
- > Gamification in security
- > Human factor in resilience
- > Operational recovery and
- continuity > Preparation and adaptation

- Complex CPS security

  - security
- > Attack resilient architectures > Critical infrastructure security
  - > Cyber-physical attacks
  - security
  - > eHealth security
  - > Embedded systems security
  - > Internet of body security
  - > ICS security
  - > IIoT security and privacy
  - > ITS security
  - > IoT and cloud forensics
  - Mobile applications security
  - > SCADA cyber-security
  - > Security-as-a-service
  - > Sensor network security
  - > Side-channel attacks
  - > Smart cities security
  - Smart grid security
  - Virtualization security

The IEEE CSR 2024 conference will accept high-quality regular research papers, Systematization of Knowledge (SoK) papers providing insights in the above areas, and industrial papers promoting contributions on technology development, innovations and implementations. The IEEE CSR 2024 also hosts workshops that specialize into the conference's areas or focus on high-quality applied research and innovation results obtained from cyber-security and resilience projects.

Submitted manuscripts should not exceed 6 pages (plus 2 extra pages, being subject to overlength page charges) and should be of sufficient detail to be evaluated by expert reviewers in the field. Accepted papers will be submitted for inclusion into IEEE Xplore subject to meeting IEEE Xplore's scope and quality requirements. Detailed information about paper submission and guidelines for authors have been posted at IEEE CSR 2024 conference website https://www.ieee-csr.org.

- - strategies

  - > Zero-trust security
  - Safety-critical applications
