

2025 IEEE International Conference on Cyber Security and Resilience

Call for Workshop Proposals

Important dates

Workshop proposals' deadline:

December 16, 2024

Workshop proposals' notification:

December 30, 2024

Workshop CFP for web posting:

January 20, 2025

Workshop dates:

August 4–6, 2025

Conference chairs

Nicholas Kolokotronis (GR)

Stavros Shiaeles (UK)

Emanuele Bellini (IT)

Steering committee

Emanuele Bellini (IT)

Ernesto Damiani (AE)

Francesco Flammini (CH)

Giancarlo Fortino (IT)

Bogdan Ghita (UK)

Vasilis Katos (UK)

Nicholas Kolokotronis (GR)

Stefano Marrone (IT)

Stavros Shiaeles (UK)

Costas Vassilakis (GR)

Technical program chairs

Kim-Kwang Raymond Choo (US)

Konstantinos Markantonakis (UK)

Track chairs

Nicholas J. Multari (US)

Rosalie McQuaid (US)

Publication chairs

Costas Vassilakis (GR)

Nathan Clarke (UK)

Workshops chairs

Sokratis Katsikas (NO)

Konstantinos Limniotis (GR)

Local operations

Alexios Lekidis (GR)

Kyriakos Fytrakis (GR)

The IEEE International Conference on Cyber Security and Resilience (IEEE CSR) is an annual event sponsored by the IEEE Systems, Man, and Cybernetics (SMC) Society. The IEEE CSR 2025 will be held as a **physical event**, during August 4–6, 2025, and will host workshops that specialize the conference's main research areas (*regular workshops*) or focus on high-quality applied research and innovation results that are obtained from projects (*project workshops*).

Workshops' format

Regular workshops should focus on a specific scientific subject in the scope of IEEE CSR 2025 and specialize to complement the main conference areas. Each regular workshop should be chaired by at least two researchers/principal investigators preferably from institutions located in different countries, and include an international Program Committee with recognized researchers in the workshop's areas.

Project workshops are intended to promote the dissemination of results from international (such as EU HE, ESF, NSF) and national funded projects in cyber-security and resilience; both preliminary (for ongoing) and final (for finished) project results are sought. The workshop should be chaired by at least two researchers/principal investigators preferably from different projects, and include an international Program Committee with recognized researchers in the workshop's areas.

Workshops' organization

The Organizing Committee of each workshop will be responsible for:

- › Producing, based on IEEE CSR template, and distributing the workshop's call for papers (CFP);
- › Coordinating the review and selection of the papers submitted to the workshop, as workshop chairs (on the paper management platform to be used by the conference);
- › Delivering the final versions of the papers accepted for the workshop in accordance with the guidelines and deadlines defined by the IEEE CSR 2025 organizers;
- › Coordinating and chairing the workshop sessions at the conference.

IEEE CSR organizers reserve the right to cancel a workshop if deadlines are missed or the number of registered attendees is too low to support the costs associated with the workshop; at least 10 submitted and 5 accepted papers are expected by each workshop that is held under IEEE CSR.

Workshops' proposal contents

Workshop proposals should contain the following information:

- | | |
|---|---|
| › Workshop's acronym and full title; | › Full name, affiliation, country and e-mail of workshop's committee members; |
| › Description of scientific scope and how the conference is specialized/complemented; | › Workshop's technical program committee proposal (names and affiliations); |
| › List of (about 10–12) topics of interest to include in the workshop's CFP; | › Description of publicity and promotion plan; |
| › Planned duration (half-day or full-day); | › Project details (only for project workshops). |

Proposals should be submitted electronically (in PDF format) in English at info@ieee-csr.org. Selection of workshops will be performed by IEEE CSR 2025 Workshops Chairs. More information about the submission process and related documents to be submitted can be found at IEEE CSR website <https://www.ieee-csr.org/call-information/#call-for-workshop-proposals>
